## PROFILE

I'm Fatih, a Frontend Developer based in Ankara, Turkey. I'm a chemical engineer graduate from Bogazici University, but I've changed my career plan to do what I love, and improved myself in Frontend Development. I mostly use React.js and Redux libraries in my projects.

## EDUCATION

### CHEMICAL ENGINEERING

BOGAZICI UNIVERSITY  
2003 - 2009

### HIGH SCHOOL

KAYSERİ FEN LİSESİ  
2000 - 2003

## EXPERIENCE

### Teleskop App | Frontend Developer

Oct 2018 - Current

Teleskop.app is an internet and media curation application where you create custom streams with keywords to follow special topics on internet. I am responsible for web app of Teleskop and I use React, Next.js and Redux in this project.

### Fabrika Medya | Frontend Developer

May 2018 - Current

Fabrika Medya is an Ankara-based digital agency mostly focused on web and mobile applications. I am working as a web frontend developer. I use React.js library with REST API to create Progressive Web Apps (PWA).

### Yandex Turkey | Expert Assessor

Mar 2013 - Aug 2018

In Turkish search quality assessment team, I'm responsible for improving search engine results by performing human judgement with special tools. Also, I'm working in video quality assesment and geo location improvement teams.

### Google Turkey | Assessor

Sep 2016 - Aug 2017

In Google Turkey assessor team, I was responsible for search engine result page (SERP) quality development. I have specifically worked on voice recognition.

### Petlas Tire Inc. | R&D Engineer

Sep 2011 - Jul 2013

I've worked in Petlas as TBR (Truck Bus Radial) Product Development Engineer and I was responsible for Petlas TBR Tire Development Project as a team leader.

## PERSONAL PROJECTS

### YouFolders

Jan 2018 - Current

<https://www.youfolders.com>

YouFolders is a YouTube service to organize your YouTube subscriptions into custom folders. It works on YouTube API with Javascript.

## CERTIFICATES

### WEB AND GRAPHIC DESIGN

Apr 2015 - Sep 2015

Bilge Adam | [www.bilgeadam.com](http://www.bilgeadam.com)

The course has 2 parts. First part is graphic design (PhotoShop, & Illustrator) and second part is web design (HTML5, CSS3, Javascript, Bootstrap).

## REFERENCE

Reference will be given on demand.
